

29er Kit Contents

Part code	Gauge μm	Color	Purpose	Where	Width	Length	Qty
1 PML250	250	light grey	Reduce the friction of the bowsprit	Front bowsprit exit	70	0,2	1
2 PML250	250	light grey	Reduce the friction of the kite in and out	Inside kite throat	60	0,35	1
3 PML250	250	light grey	Reduce the friction of the bowsprit	Deck cavity	50	0,05	1
4 PCB250	250	black	Reduce the friction with the kicker	Tiller	51	0,1	1
5 PCT250	250	translucent	Blocks vang and cunningham under the mast	Bench	105	0,05	2
6 PCT250	250	translucent	Avoid damages and scratches	Gennaker block	140	0,07	2
7 PMG050	50	grey	Improve sliding	Gnav car	46	0,1	2
8 PMG050	50	grey	Improve sliding	Gnav track	52	0,4	1
9 PCT076	76	translucent	Improve sliding	Gnav lateral	80	0,4	1
10 PML050	50	grey	Rigging	Rigging	19	10	1
11 PCT125	125	translucent	Reduce wear and tear of the jib	Jib leech	51	0,1	1
12 PCT125	125	translucent	Rudder and Daggerboard Stock	Rudder/daggerboard	25	1	1
13 PCT250	250	translucent	Rudder and Daggerboard Stock	Rudder/daggerboard	25	1	1
14 PCT500	500	translucent	Rudder and Daggerboard Stock	Rudder/daggerboard	25	1	1
15 PCT250	250	translucent	Avoid damages and scratches from bowsprit	Under the bench, mast step and bowsprit block	350	0,25	1
